| 1 | I really enjoyed this class, and although it wasn't as challenging as stats would have been it was very interesting and I have learned a lot. I loved the instructor!! |
| 1 | The first test seemed much more difficult than the rest of the material in the course. Not that it was unreasonable it was just unexpected. |
| 1 | Sanji is a great professor. He was always respectful of students and their questions. He made it very clearly the expectations on exams, papers, and online quizzes. |
| 1 | Professor Sanji was great. He was always enthusiastic about the subject matter and taught it in a very clear and concise manner. I highly recommend this course to anyone looking to fill a math gen ed or someone looking for a practical math course. |
| 1 | I have never liked math courses, but this course was one of the best classes I have ever had the pleasure of taking. Professor Balasuriya was helpful and enthusiastic about the course, making it that much more engaging. I cannot speak highly enough about Professor Balasuriya and this course! |
| 1 | Sanji is one of the best professors on this campus! His enthusiasm is infectious and he is always very patient to all students. It's professors like him that give Connecticut College a good reputation for education standards! |
| 1 | I LOVED THIS CLASS SO MUCH. I WILL MISS IT!!!! --> There should be another class that piggy-backs off of this one! |
| 1 | The professor showed HUGE enthusiasm towards the class. I hated the material and just the fact that I am forced to take a math class, but the professor realized that basically everyone in the class hates math and he really accommodated to our needs of making it easy and as painless as possible. |
| 1 | I would definitely recommend the professor but not the course. Professor Sanji showed enthusiasm for the subject as soon as he walked through the door. There was not a day where his energy level wasn't at a 10. The course itself and the material it covers is not great. Sanji explained it well and we understood it, but i just did not enjoy that type of math. |
| 1 | I have enjoyed this course. I am not a math person, but Sanji explained everything clearly and I had no trouble understanding anything. |
